# What is Distantrace?

Distantrace.com is a versatile and modern web platform offering a unique way for sports enthusiasts to participate in virtual sports challenges and register for mass sporting events.

The Distantrace.com platform allows for the creation and participation in various types of sports events.

All events are categorized into the following groups:

- Virtual step challenges
- Virtual sports activity challenges
- Virtual competitions
- On-site sports competitions

## **Virtual Step Challenges**

The simplest type of challenge. You need to download the Distantrace.com app and sign up for a virtual step challenge. Steps are automatically synchronized.

## **Virtual Sports Activity Challenges**

Sports activities include any sport activity recorded in a sports app (by pressing start/stop). At Distantrace.com, you can connect multiple sports apps, and activities are automatically loaded into the challenge. This can include running, cycling, and many other activities.

## **Virtual Competitions**

Sports competitions are virtual races where you can run or cycle for speed. Each competition has specific dates and times when the run/cycle must be completed. The result must be recorded in a sports app, just like in challenges. It's important to remember that Distantrace.com does not support all sports apps - it's important to use a supported app.

## **On-site Sports Competitions**

Distantrace.com provides competition organizers with the ability to create registration, payment, and result compilation on the Distantrace.com platform. Organizers are offered a wide range of options, from generating diplomas and sending out WhatsApp messages to banking integrations, allowing for the automatic processing of paid invoices.

# Why participate in competitions using Distantrace.com?

Participating in virtual challenges and mass competitions using Distantrace.com provides participants with a series of convincing advantages. Whether you're a passionate sports enthusiast or just a beginner, here are some reasons to consider using the platform:

- **Accessibility:** Distantrace.com allows participants to engage in challenges on their own schedule and at their chosen location.
- **Motivation:** Joining virtual challenges adds an extra level of motivation to training. Setting goals, tracking progress, and competing with others can increase participants' commitment to achieving their goals.
- **Global Community:** The site Distantrace.com connects participants with a diverse community of like-minded people from around the world. Engage in friendly competition, share achievements, and offer support to other participants, fostering a sense of camaraderie.
- **Versatile Challenge Options:** By utilizing various virtual challenges, you can find exactly what matches each participant's individual interests and readiness level.
- **Goal Achievement:** Participating in virtual challenges provides a tangible sense of accomplishment. Crossing the finish line, even in a virtual space, can be incredibly inspiring and can enhance each participant's confidence.

Public competitions and challenges are available here: <https://distantrace.com/en/events/>.

# Why create challenges on the Distantrace.com platform?

If you are an event organizer or just want to create sports challenges for your colleagues or friends, then you have come to the right place.

We offer many and varied options:

- **Virtual Club:** If you create challenges on [distantrace.com](https://distantrace.com), it all starts with creating a virtual club, and all participants who join your organized events automatically join your club, which further provides simple communication with participants, for example, informing about upcoming challenges. Each club has its own homepage on the [distantrace.com](https://distantrace.com) platform, where you can get acquainted with all the club's organized events, offering participants easy access to all events and registration. In addition, the club page can include news, announcements, etc., related to club activities. It is also possible to sell club merchandise, such as t-shirts, medals, and other items, creating a sense of community among members.
- **Easily Create Events:** Creating virtual challenges and competitions on [distantrace.com](https://distantrace.com) is very simple. Just add an event name, some registration parameters, and rules.
- **Public On-site Events:** For on-site events with a common start time, such as marathons, [distantrace.com](https://distantrace.com) provides a simple registration platform and result processing.
- **Participant Management:** Organizing a participant database is quite simple. On the [distantrace.com](https://distantrace.com) platform, you can follow registrations, purchases, bank transactions. In addition, participants themselves have the option to change the distance or purchase additional products.
- **Results Processing and Rankings:** [distantrace.com](https://distantrace.com) provides result processing and automatically calculates rankings, making the organizer's job easier.
- **International Solution:** Reach your participants anywhere in the world, making the sports event accessible to a diverse audience.
- **Community Building:** Using [distantrace.com](https://distantrace.com), it is possible to create a sense of community among participants, providing the opportunity to communicate with each other, share experiences, and celebrate achievements.
