

How to Find a Challenge in the DistantRace App?

In the DistantRace app, challenges can only be found if you have a challenge QR code or a challenge code.

1. Look for a blue **button with a QR code icon** at the bottom right corner of the app's home screen.
2. A screen will open where you can **scan the challenge QR code**. Scan it, and you'll be directed to the challenge registration screen.
3. If you don't want to or can't scan the QR code, for example, if the QR code is in your phone's web browser, tap "Enter code manually."
4. A screen will open where you can **enter the challenge code**. Enter it, and you'll be directed to the challenge registration screen.
